Waikiki Lau Yee Chai
WORLD'S LARGEST, MOST BEAUTIFUL CHINESE RESTAURANT & NIGHTCLUB
Over the main entrance of Waikiki Lau Yee Chai, these four Chinese ideographs say, "Beyond this world of ours is another, an ideal world, or Utopia."

At the top of this page is an artist's visualization of this Utopia, or Shangri-la, a painting which occupies almost one entire wall of the main dining room, and is appraised at $30,000.

This Utopia was established by people who fled into the mountains of China to escape the wrath of the Emperor Ch'in.

A fisherman discovered the place by accident and was so smitten by the hospitality of the people and the superior type of civilization enjoyed by all that he vowed to return after putting his affairs in order.

To make sure that he could find his way back, he planted bamboo shoots along the way. Alas, they did not take root and he never found his Shangri-la. Many others tried to find the ideal world he described. No one succeeded.

CHINESE UTOPIA CREATED AT WAIKIKI LAU YEE CHAI

It was planned as a Shangri-la where the finest products of Nature would be made available for the delectation of man. The yield from farm, field and sea would be used by culinary artists who would prepare them in ingenious ways, pour over them delicious sauces, place before diners delectable foods prepared in the world-famous Cantonese style. That plan has materialized. If you go to Waikiki Lau Yee Chai, you will find:

- Over 40,000 square feet of land devoted exclusively to providing you the finest food and entertainment.
- A tile-roofed restaurant, Chinese in architecture, with interior walls comprising a fabulous collection of carved wood and glass panels.
- Rock garden near the entrance and pool in the rear patio that lend a quiet, unhurried atmosphere to the restaurant.

We have the largest dining room in Hawaii. Large wedding receptions, convention dinners and banquets held frequently.
